

## CAT5e 110 and CAT6 210 Patch Cables

**Make quick and easy connections to  
110- or 210-type punchdown connection blocks.**

## FEATURES

- Make simple CAT5e or CAT6 connections up to 10 feet (3 m).
- Available with T568A or T568B connectors.
- Clear plug housings enable you to view conductors during and after installation.

EVN1100

## OVERVIEW

With high-performance CAT5e Patch Cables (S-110), you can make simple connections to 110-type connecting blocks.

CAT5e Patch Cables meet stringent transmission performance standards to ensure CAT5e compatibility. They use stranded CAT5e cable with your choice of S-110P4 and RJ-45 connectors.

You can use CAT5e Patch Cables either for patching network equipment to 110-type connecting blocks or to connect test equipment to a 110 field.

CAT5e Patch Cables are available in 3-ft. (0.9-m), 7-ft. (2.1-m), and 10-ft (3-m) lengths.

CAT6 Type 210 Patch Cables meet or exceed CAT6 performance specs. They are available with S210P4 to RJ-45 connectors (T568A or T568B) in 3-ft. (0.9-m) , 7-ft. (2.1-m), or 10-ft. (3-m) lengths.

Polarized plug housing ensures proper orientation when CAT6 Type 210 Patch Cables are connected to Type 210 connecting blocks. Their clear thermoplastic plug housing enables you to view conductors during and after installation. And the ergonomic plugs make simple and sure connections.

## Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

### Recognize any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p. m. and you need help, but your vendor's tech support line is closed.

According to a survey by Data Communications magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
