

Ethernet PC Card

Get high throughput
performance.

FEATURES

- » Superior throughput performance.
- » Easy to use menu-driven installation software.
- » Platform independent—supports all popular PCMCIA 2.1, Type II, and ExCA compliant PCs.
- » Card and Socket Services software support.
- » Has Direct Enablers to reduce memory requirements.
- » Superior Ethernet throughput performance using dynamic pipelining technology.
- » Supports all major Network Operating Systems.
- » HP 100/200 LX Palmtops PC support.
- » Combined UTP and coax model available.
- » Supports all major Network Operating Systems.
- » Self-test and diagnostics.

OVERVIEW

With the [Ethernet PC Card](#) you get high throughput performance thanks to its advanced Ethernet controller hardware with innovative software drivers.

Supplied menu-driven installation software makes for an effortless installation. And it automatically configures the PCMCIA card to non-conflicting settings. The [Ethernet PC Card](#) is the fastest way to connect your PC to an Ethernet LAN.

Since it's independent of platform and Network Operating Systems, the installation software automatically configures the PCMCIA card to support all popular PCMCIA Release 2.1- compliant PCs and all major Network Operating Systems.

Our [Ethernet PC Card](#) is modular in design, so a single PCMCIA card accommodates both Unshielded Twisted-Pair and Coaxial media attachments.

TECH SPECS

Ethernet Standard — IEEE 802.3

Interface Standards: PCMCIA 2.1, Type II
Operating Humidity — 0 to 90% noncondensing
Operating Temperature — 0 to 50°C

PCMCIA Software Support —

Cards and Socket Services Direct Enablers
Power Consumption — 60 mA (Active) 10BASE-T;
Size — 3.4"H x 2.1"W x 0.2"D (8.6 x 5.4 x 0.5 cm)
Weight — <0.1 lb (<0.1 kg)

Item

Ethernet PC Card, 10BASE-T

Code

LE7003A-UTP

Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

Recognize any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p.m. and you need help, but your vendor's tech support line is closed.

According to a survey by *Data Communications* magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
