

## 10BASE-T MiniHub

Expand your office Ethernet network capabilities with one simple connection.

## FEATURES

- » Compact design fits neatly within your workspace.
- » Simply and economically installed via twisted-pair cabling for instant expansion of network capacities.

## OVERVIEW

With the **10BASE-T MiniHub**, small- and medium-sized businesses have the power to connect with the Ethernet network as well as expand wiring to local workgroups.

This nine-port device adheres to all Ethernet standards (IEEE 802.3, 10BASE-T, AUI) and gives you full-function repeater capabilities.

You get eight standard RJ-45 ports for connections to PCs, workstations, and other devices with RJ-45 ports, without the use of special crossover cables or connectors.

The ninth port, a DB15 male connector, powers up the **10BASE-T MiniHub** by connecting it to an AUI interface on an Ethernet device. It's similar to connecting a transceiver by using an AUI cable.

## TECH SPECS

**Management** — Signal-quality monitoring  
**Standards** — IEEE 802.3 10BASE-T (BNC, AUI)  
**Speed** — 10 Mbps  
**Connectors** — (8) RJ-45, (1) AUI male  
**Indicators** — (1) PWR, (9) RX, (9) LINK  
**Power** — From the AUI interface  
**Power Consumption** — 10 watts max  
**Size** — 0.8"H x 5"W x 4.4"D  
(1.9 x 12.7 x 11.2 cm)  
**Weight** — 1 lb. (0.5 kg)

### Item

10BASE-T Minihub

### Code

LE2601A

## Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

Recognize any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p.m. and you need help, but your vendor's tech support line is closed.

According to a survey by *Data Communications* magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
