

U.S. Robotics Courier 56K Business Modem with V.92

The workhorse business modem  
that's always compatible.

## FEATURES

- » Supports a wide range of V. standards.
- » Flash-ROM upgradable.
- » Call detection switches between data and fax calls automatically.

## OVERVIEW

With the **U.S. Robotics Courier 56K Business Modem with V.92**, you get unsurpassed reliability and straightforward simplicity. It's easy to set up, and once you do, it's so reliable you might forget it's even there!

The modem supports data transmission up to 56 kbps\*. It has typical dialup connection and 2-wire leased-line capabilities. The RS-232 serial interface can be configured as async or sync, depending on your application. And, it's RoHS compliant.

Universal connections enable the modem to support a wide range of V. standards. It connects automatically with other modems at their highest speeds. And along with all the standard protocols, you also get Adaptive Speed Leveling™ (ASL™) when you connect to another modem that has ASL.

ASL enables the modem to adjust to the speed of incoming and outgoing channels, up or down, to match changing line conditions.

The courier also has Call Detection to sort out fax and data calls. Call Detection looks for a CNG tone, a calling tone that indicates an incoming fax. If the modem detects a CNG tone on an incoming call, it assumes that call is a fax; otherwise, it assumes the call is a standard data call.

*\*NOTE: Although this faxmodem is capable of 56-kbps downloads, FCC regulations limit download speeds to 53 kbps.*

## TECH SPECS

**Fax Standards** — V.17, V.29, V.27 ter, Group III

**Line Type** — Dialup, 2-wire leased line

**Modem Standards** — ITU: V.92, V.90, V.42 bis, V.34+, V.34, V.FC, V.32 terbo, V.32 bis, V.32, V.25 bis, V.23, V.22 bis, V.22, V.21;

Bell: 212A, 103

**Operation** — Asynchronous or synchronous

**Speed (Maximum)** —

Download: 56 kbps;

Upload: 33.6 kbps;

Fax: 14.4 kbps

**User Controls** — (1) Voice/Data button

**Interface** — RS-232

**Connectors** — (1) DB25 female, (2) RJ-11

**Indicators** — (12) LEDs: HS, AA, CD, OH, RD, SD, TR, MR, RS, CS, SYN, ARQ/FAX

**Power** — 115 VAC, 60 Hz

**Size** — 1.3"H x 6.4"W x 10.3"D (3.3 x 16.3 x 26.2 cm)

### What's included

- ◆ Modem
- ◆ RJ-11 cable
- ◆ CD-ROM with user's manual in PDF format

### Item

### Code

U.S. Robotics Courier 56K Business Modem  
with V.92

**USR3453C**

### You might also need...

RS-232 Cable, 25-Conductor,

10-ft. (3-m), Male/Female

**ECM25C-0010-MF**

AT® Modem Cable, Premium, 9-Conductor,

DB9 Female/DB25 Male, 6-ft. (1.8-m)

**EVMBMC-0006**

## Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

Recognize any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p.m. and you need help, but your vendor's tech support line is closed.

According to a survey by *Data Communications* magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
