

OPTISOK

**The solution for pulling cable bundles
through restricted spaces.**

FEATURES

- Easy to install and remove.
- Expands for a wide variety of sizes.
- Bright orange color makes the OPTISOK easy to identify during the pull.
- Pull ring attaches easily to pulling lines and fish tapes.

OVERVIEW

The problem: You've got a handful of cables that need to go behind 20 feet of wall and end up in your wiring closet. You could use fish tape to pull each cable over individually, but who has that much time to waste? Luckily, Black Box has the solution: OPTISOK Cable Pulling Grips.

The OPTISOK is a flexible and expandable nonmetallic polyester/nylon sleeve. It's open on one end and has a pull ring on the other.

Once you establish what size OPTISOK you're going to need (based on the bundle size range—see the ordering block for specific ranges), insert the cables into the OPTISOK's sleeve. The OPTISOK works like a Chinese handcuff: as you pull on the end with the ring, the OPTISOK tightens around the cables, holding them inside the sleeve. Attach the ring to a pulling line or fish tape, and you're ready to pull the bundle through restricted spaces.

Once you're through with the OPTISOK, you'll need to release the tension on the cables. Push the OPTISOK material only in the direction of the ring. This will relax the material and release the cables. If you can't reach the OPTISOK to release it, you can easily cut away the OPTISOK with scissors—without cable or connector damage.

TECH SPECS

Maximum Working Load —

FT351: 30 lb. (13.6 kg);
FT352: 40 lb. (18.1 kg);
FT353: 50 lb. (22.7 kg)

Color — Orange

Operating Temperature — 40 to 95°F (4 to 35°C)

Storage Temperature — -10 to +120°F (-23 to +49°C)

Size — FT351: 28"L (71.1 cm);
FT352: 31"L (78.7 cm);
FT353: 33"L (83.8 cm)

Item		Code
OPTISOK		
Small	0.13"–0.8" (0.33–2.03 cm)	FT351
Medium	0.25"–0.8" (0.64–2.03 cm)	FT352
Large	0.75"–1.8" (1.91–4.57 cm)	FT353

Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

Recognize any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p. m. and you need help, but your vendor's tech support line is closed.

According to a survey by Data Communications magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
