

19" Sliding Pivoting Keyboard Tray with Front Mouse Tray

The better mouse tray
for tight spaces—in front
of the keyboard, so it's
out of the way!

FEATURES

- » A convenient solution for tight data centers.
- » Mouse tray slides out from the front of the keyboard tray, enabling you to use it in crowded or narrow areas.
- » Holds a keyboard up to 20.5" wide, so you can use a keyboard even if it's wider than your cabinet or rack.

OVERVIEW

The 19" Sliding Pivoting Keyboard Tray with Front Mouse Tray is the ideal cabinet or rack accessory for your busy server room. Just pull it out and pivot it into position to type; pivot it and push it in for storage. Because the keyboard tray pivots to slide back into place, it can accommodate even larger keyboards up to 20.5" (52.1 cm) wide. The mouse tray slides out from under the front of the keyboard tray.

What's more, the 19" Sliding Pivoting Keyboard Tray with Front Mouse Tray is designed for comfort. You can pivot the tray from side to side for the best working position, and the cushioned wrist rest makes it comfortable to use. The mouse tray features a nonskid surface for easy rolling and clicking.

The keyboard tray features adjustable four-point 19" EIA mounting for use in any standard 19" rack.
