

Adjustable Extension Columns and I-Beam Clamp

Ceiling-mount accessories for flat-panel screens and projectors.

FEATURES

Adjustable Extension Columns

- » For use in classroom, conference room, and lecture hall settings.
- » Choose from three drop lengths: 6"–9" (15–23 cm), 18"–24" (46–61 cm), and 3 ft.–5 ft. (0.9–1.5 m).
- » Mounting pipe is threaded at both ends.
- » Pipe is notched for use with screw to provide safe and secure mounting.
- » Height adjustment at 1" increments.
- » For use with the I-Beam Clamp, 4"–8" (ACC-558).
- » Extension column length measures 3.5" longer than stated drop to provide finished drop length.
- » 1.5"-11.5 NPT schedule 40 pipe.

I-Beam Clamp

- » Securely anchor a projector ceiling mount to an overhead I-beam.
- » Adjustment range is 4–8 inches (10–20 cm).
- » For use with Adjustable Extension Columns.
- » Threaded fitting is 1.5"/11.5 NPS standard.

ADJ-006009

ACC-558

Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

Recognize any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p.m. and you need help, but your vendor's tech support line is closed.

According to a survey by *Data Communications* magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
