

Custom-length patch cables

**Order custom-length CAT5e/6
patch cables today—
we'll ship today.**

Or, the cables are FREE!*

"Cable 911" at Black Box.

Get *exactly* the length you need, *when* you need it.

Why compromise your work by using the wrong length cable? When you need patch cables right away, call Cable 911 at Black Box.

Don't settle for whatever's lying around in the back room, especially if it's way too long. Why use 5-foot cables when you really need 3-foot cables? Plus you risk jeopardizing your network organization and performance. Keep your telecomm rooms and data centers well-organized, good-looking showpieces by using the right length cable. Call us today and you'll have them tomorrow. Better yet, you'll save money, too, by buying exactly what you need and no more.

Take the risk out of custom-length cables.

With this exclusive new service, Black Box eliminates long lead times of days or weeks for custom cables. While others may say they offer same-day service, can you really afford to take a chance?

With our 35-year history of absolute top-notch customer service, you can trust Black Box. If we say we'll ship your cables today, we will. Best of all, you won't take any risks when it comes to quality because we test every single custom cable we build.

*How the FREE part works.

If we don't keep our promise to ship your cables today, you'll get your cables FREE! Now that doesn't include taxes, shipping, and handling, but who can argue with free?

The details.

To keep our promise to ship your cables the same day, we have a few very reasonable caveats:

1. Orders must be placed by 1 P.M. ET Mondays–Fridays.
2. The maximum order is 50 cables per customer per day.
3. Cable 911 customers must be pre-approved credit customers or those buying with a credit card.
4. To order, you must call Customer Service at 724-746-5500. On-line orders will not be accepted.

*Why settle for this mess
when you can get
exactly what you want
tomorrow?*

Get your cables tomorrow.

If you order by 1 P.M. ET, we can ship your order that evening.

Cable options.

You can order patch cables with the following options:
