

PremNet 5000 I/O Module Management Manual Updates

Title: PremNet 5000 I/O Module Management Manual Updates

Part/Document Number: PND950001-35/A

Date: November 1997

PremNet is packaged with a *Premnet Broadband Access System Installation and Operation Manual* (PND950004-1/A), a *PremNet 5000 I/O Module Management Manual* (950-1461-00) as well as separate manuals for certain individual I/O modules. Please note that the additional I/O module manuals contain more current information about that I/O module than exists in the *PremNet 5000 I/O Module Management Manual*.

For example, the information contained in the separate *Ethernet I/O Module Manual* (PND850074-1/A) replaces the information currently in Chapter 3 of the *PremNet 5000 I/O Module Management Manual* (950-1461-00).
