

Release Notes

Title: PremNet™ 4-Wire Voice I/O Module Release Notes

Part/Document Number: PND850060-32/A

Date: September, 1998

Introduction

These Release Notes list customer issues with the PremNet 4-Wire Voice I/O module.

Compatibility

Different revisions of the PremNet 4-Wire Voice firmware do not work together under certain conditions. Therefore, connections should only be made between 4-Wire Voice modules that have the same revision of firmware (e.g., Revision 11 should only connect to Revision 11, Revision 08 should only connect to Revision 08, etc.).
